Judge M. Marsteller, deputy collector of customs for the United States at La Osa, has this week been visiting in the city with his family. While La Osa is very much out of the world, socially, the judge says it is not a bad place to live.

Mr. Albert Lee, an experienced and reliable shoemaker and harness repairer, has opened a shop in the rear of Jack Gates' Parlor saloon, where he will be pleased to take orders for work which he guarantees to be first-class in every respect.

Mr. G. K. Fisher, the well known Tucson life insurance agent, who is interested in some good Santa Cruz county mining properties, has this week been a business visitor in the city. Mr. Fisher's many friends would like to see him make a stake.

Wednesday morning Mr. A. M. Conard, the mining man, left overland for the Cananea mountains, to inspect a number of copper prospects owned by himself and associates. The prospects are said to be very good and the gentleman expects to make mines out of them. We wish Al abundant success.

Ramon Elias, brother of Mr. Juan Elias, one of Santa Cruz county's most prosperous young stockraisers, has this week been in the city from Magdalena, where he is engaged in business. The young man came up to the Line Cities to meet and visit with his brother, who was here on business, connected with his big ranch, part of which is in Pima and part in this county.

Chaplain O. J. Nave of the United States army, has this week been a visitor in Nogales, where he has many friends all of whom are glad to see him back. The chaplain is a father of United States District Attorney Fred S. Nave, and recently returned from the Philippine Islands, where he was stationed with the army. The gentleman is looking splendid, being the picture of health.

Col. Willis P. Harlow, president and general manager of the Yaqui Copper Company is now at Campo Santo Niño, having been in Nogales last Saturday night on his way south. Walter McCurdy, now in jail in Hermosillo, where he has been since last March, it is said will be a free man on the 27th day of next January. McCurdy was Harlow's private secretary and no doubt he will very much regret his inability to see his old employer.

Manager L. E. Ephraim of the Nogales Water Company will leave next month for New York City, where if all reports are true, he will make the final arrangements to lead a better life. The name of the lady who has consented to become his partner for life, has not been learned, but it is said she is a beautiful and highly accomplished countrywoman of our worthy and greatly respected citizen, who will shortly arrive in New York from the continent. Mr. Ephraim, THE VIDETTE and a host of friends extend hearty congratulations.

Floyd B. Wilson, the New York lawyer who is president and general manager of the Arizona Gold & Copper Company, of which Harry L. Vaughan is general superintendent, arrived in the city Monday night to inspect the many properties in Santa Cruz county and Sonora in which his company is interested. From here Mr. Floyd will go to the mines in Sonora, which are owned by the Rubi Mining and Milling Company, of which he is president and Geo. W. Crowe general manager. Roy & Titcomb, Inc., of this city, recently constructed a mill for the Rubi company which is said to be first-class in every respect.

It is said the mining properties situated in Sonora, in which the Brady-Levin Commission Company recently became interested, are showing up in fine shape. The gentlemen are very enthusiastic and think they have a good chance to make a big fortune. Mr. Richard Brady, president of the company, is in the city, after having visited the properties, in company with Mr. Henry Levin. The gentlemen were well pleased with their visit.

Tuesday morning Captain Chas. E. Perkins, county surveyor for Santa Cruz, returned from Zubiate, where he had been to survey mining property for the big company of which Dew R. Oliver of San Francisco, is president and manager and P. E. Murray general superintendent. A lot of new machinery is now being installed by the management which it is said will greatly increase the value of the property. Mrs. Perkins accompanied the captain on his trip to the mines.

Attorney John M. Hess of Chicago is in the city, having arrived last Monday night. Mr. Hess has interested capitalists from his home in the old Tumasacori or Promotoria mines in Sonora, near Nogales and they are daily expected here to inspect the property, being satisfied with the conditions thus far, but desire a personal inspection before taking the property. Should the transfer be made, the syndicate will erect extensive reduction works and operate the property on a large scale. The ore, treated at the El Paso smelter, gives returns of from \$3,000 to \$8,000 per carload. The values are in copper, gold, and silver.

Hon. H. K. Chenoweth came up from Magdalena Tuesday morning to visit a few days with Mrs. Chenoweth and the children. Harry and his brother, Walter, have acquired some very valuable gold prospects out near the Cerro Prieto mines which are now being successfully developed under the personal supervision of Walter, who is a first-class miner and assayer. Mr. Chenoweth says there is unusual activity in the Magdalena mining district at the present time and a number of new and valuable prospects have recently been taken up by Americans. The great success of the Cerro Prieto mines, the property sold a short time ago by the Chenoweths and associates for the princely sum of \$600,000, gold, to the Nogales Copper Company, has in a large measure been the cause of the present rush of Americans to the Magdalena district. Mr. Chenoweth will in a few days return to the hills.

Monday Max Müller, manager and Adolfo Bley, vice-president of Banco de Sonora, were registered at the Montezuma Hotel. The gentlemen had been to Cananea, Douglas and Naco, and were returning to their Hermosillo home, where the main banking institution is, which has branches at Guaymas, Nogales, Sonora, and Chihuahua, all of which are growing to magnificent proportions under the able careful direction of these financial giants, who have in a large measure placed the Banco de Sonora in the front rank with the strongest financial institutions in the Republic of Mexico, or in the United States for that matter. As a financier Manager Müller has few superiors and he has by his work proven his ability to direct the affairs of his chain of banks. The Nogales branch, which is under the able management of Mr. F. Peltier, is daily increasing its business and enjoys the confidence of everybody. Monday night the gentlemen continued on their way home, after having spent the day pleasantly with friends and acquaintance.

Prospectors are coming around now quite numerous these days. Some to do their annual assessments on claims they hold, and others to locate claims.

Mr. Jack Morrison is out doing the assessment work for the year on his property adjoining the Bland ledge. Mr. Morrison is a thorough miner in every sense of the term and when he sees a good claim he knows it. So I think he must have something good where he is working.

The Arizona Gold & Copper Company is piling another carload of concentrates on the Southern Pacific platform at Patagonia.

As we have not seen anything of our friend and neighbor, "Lucky Mark" Lulley, we are beginning to think he may have fallen into the shaft of his "Wandering Jew" mine. We want him to get that pile of ore down so we can help him spend the returns.

Mr. J. M. Hackett has accepted the position of teacher at the Sopori school. He told us when he left that just as soon as the school term was ended he would return and continue on down with his shaft which was showing up beautifully with nice galena ore and quite rich in silver too.

W. E. Balcom & Co., are doing their annual assessment work on their properties over in the Josephine Canyon. They have a fine showing for a very large producer one of these days.

The people of the Territory of Arizona, in gracious and unfeigned acknowledgment of the rich blessings bestowed during the year by the Supreme Ruler, and ever mindful of their dependence on the bounty of the Giver of all good, should seek a fitting occasion to express their feeling of gratitude and adoration.

The general health of our citizenship has been good; the treasures of our mines, forests, fields and gardens have been poured forth in increasing quantities; and the paths of honest toil and energy have led to comfort, contentment and happiness. Prosperity has come to all branches of industry, not only in this Territory, but in the Nation, for which the expressions of thanks of a grateful people should be devoutly given.

In harmony with the beautiful custom of our people of giving a day in each year to devotion and thanksgiving for the gifts of Providence, I, ALEXANDER O.
